Filling Out the Questions

This is the form that everyone will use to submit a proposal:

A welcome message will appear first.

2021 NCFR Annual Conference: Initial Stage

Welcome to the 2021 National Council on Family Relations Annual Conference Proposal Submission Database!

Please fill out the form below to submit your proposal.

Please note: Any field marked with an asterisk (*) is a mandatory question which must be completed prior to your proposal being submitted.

Also note that proposals to Theory Construction & Research Methodology and Affiliate Councils have a different proposal submission process. Please see the [2021 NCFR Call for Proposals](#) for the full details.

After your proposal is submitted, you will receive an email acknowledging that your submission is complete. **The proposal submission deadline was extended to March 8, 2021, 11:59 p.m. Pacific Standard Time.**

If you have questions about the online submission process, contact the **section chair** to whom you will submit your proposal. You can find email addresses on pages 6 to 12 of the [2021 NCFR Call for Proposals](#).

For questions about the online submission process, contact **Cindy Winter** at (cindywinter@ncfr.org).

Spam filters: Before submitting this form, make sure your email system is set to allow emails from: support@oxfordabstracts.com, sendmail@oxfordabstracts.com, and cindywinter@ncfr.org.

(This is important. All communication regarding your submission will be sent by email from OxfordAbstracts. Be sure that all the listed emails are on your safe list to receive emails.)

Next you will enter authors:

Authors and Employers (or College/University where author is a student) *

ALL first authors and presenting authors, you MUST list current employer and job title, highest degree earned, discipline and institution from which the highest degree was earned, current licenses, and email address. For co-authors not presenting, include only email address and employer. Please indicate if authors will be attending the conference. For co-authors key the letters "NA" in the bio fields not needed.

Please note it is **mandatory** that at least one author must be checked as presenting the presentation at the conference in the **Presenting** box.

For a symposium include the names of chairs/co-chairs, discussant, facilitator, moderator (whatever positions are used), and all authors and co-authors of all papers within the symposium.

Names omitted here will NOT be printed in the author index or any online or printed programs.

Privacy Statement:

This information will be used if it is necessary to 1) get in touch with you about your submission(s), 2) provide information to you about the conference, 3) to apply for continuing education approval, and 4) include in the conference program. Your information will not be sold to a third party.

The next fields are where you submit the names and biographical information needed for the first or presenting authors (If you are submitting a symposium you need all this information for first authors of each paper within the symposium, and the discussant and chair of your symposium). For co-authors you just need to list name, email, and employer. For all other fields key in "NA" in those fields.

Preferred Presentation Format *

Please choose your **preferred** presentation format.

The **two session types** introduced in 2020, interactive papers and interactive workshops, will continue for the 2021 NCFR Annual Conference. These sessions focus on enhancing opportunities for engagement by shifting session time to include more interaction and dialogue. Authors can still choose from some of their favorite session formats, too.

Remember that the more choices in presentation format you provide, the better your chance of being accepted if the review scores are high enough.

NCFR considers all formats, including posters, of equal value, and all formats are reviewed with the same criteria.

Choose from among the following presentation formats:

- **Interactive Paper Session** — 4-5 papers centered on a common theme. Papers should focus primarily on key findings/observations, contributions, and methodological rigor. Each presenter has 8 minutes to present. A maximum of 8 slides are to be prepared in advance. After the presentations, sessions will include facilitated group dialogue and interaction.
- **Interactive Workshop** — These workshops focus on the co-creation of new knowledge and skills in real time. The focus of these can be quite broad. What is important is that any proposed workshop focus on a collaborative effort to brainstorm or otherwise address a need that moves our work forward. Examples include: developing or demonstrating novel research methods,

processes, or analysis strategies, such as how to successfully recruit underrepresented samples; developing a new measure, or training in the collection of biomarker data; theory development; conceptualizing emerging or novel phenomenon; developing or demonstrating novel clinical, programmatic, or education practices; policy development or evaluation; leadership/administrative skills; community engagement; and ways to adapt or improve the inclusiveness of any of the above.

- **Paper Session** — 3-4 papers centered around a common theme. Each presenter has 12 minutes to present. After the presentations, sessions will include facilitated group dialogue and interaction, with the hope of identifying priority next steps for the field.
- **Poster** — A graphical, instructional display containing a short abstract, headlines, charts, graphs, pie charts, or other illustrative information. It provides an opportunity for in-depth discussion of presentations with attendees. Posters are scored using the same criteria as papers, symposia, and workshops and are equal in merit to all other formats.

Poster presenters may choose to use the usual poster format or a new poster format. Click <http://bit.ly/37NYt7x> to view a video on the new poster format.

- **Resource Exchange Roundtable** — A special format for the Advancing Family Science and Education and Enrichment Sections. The Resource Exchange Roundtable is an interactive opportunity to demonstrate an educational, administrative, enrichment, or pedagogical (e.g., specific curricula or teaching technique) resource that has been particularly useful when working with students, families, professionals, or other populations. An overview is given by the leader, who then facilitates active discussion about the topic. An example of the specific resource that will be provided to roundtable attendees *must* be included with the proposal.
- **Symposium** — A presentation and discussion by 3-4 experts on a particular topic. A discussant integrates and summarizes the papers, develops implications for policy and practice from the research, and facilitates audience discussion. *See special instructions for symposium proposals.*
- **Traditional Workshop** — A training session in which the presenter leads participants through exercises or skills development in a given field with time set aside for Q&A and discussion.

2nd Preferred Presentation Format *

Please choose a second presentation format that is acceptable for your presentation.

 (This is a pull-down menu.)

Unacceptable Presentation Format *

Please check all presentation formats that are unacceptable for your proposal. (This will be a checkbox question. Check any unacceptable formats. Remember not to select your first two preferred formats.)

(This is a pull-down menu.)

Additional Question for the Education and Enrichment Section

Answer this question ONLY if your proposal is being submitted to the Education and Enrichment Section.

Please specify the contribution of **each** author listed on the proposal. The types of contributions could include conception and planning of the research project, data collection, data analysis/interpretation of findings, drafting and/or critically revising the proposal, etc.

For the next set of questions, you will identify the subject, primary population, and the method or approach of your proposal. Instead of up to three keywords, you may now choose to identify 1 to 3 keywords across the 3 categories for a total of 3 to 9 keywords.

1st Subject Code *

This year there are **3 categories of Keywords** that will help identify the thrust of your proposal: **Subject Codes**, **Primary Population Codes**, and **Method and Approach Codes**. You are required to select at least **one** code from **EACH** category (Subject Code, Primary Population Code, and Method and Approach Code). There are 3 questions for each category, so you may submit up to 3 codes for each of the categories.

Please select your first **subject code** below that shows the focus of your submission, not the population.

(This is a pull-down menu.)

2nd Subject Code

Please select a second **subject code** below that shows the focus of your submission, not the population.

(This is a pull-down menu.)

(This is a pull-down menu.)

First Population Code *

Please select up to three **Population Codes** from the list below that best captures the focal population of your submission (e.g., sample, prevention/intervention target, policy). They were developed using NCFR's Definition of Diversity and the most commonly used previous conference codes rather than an exhaustive list. For ease, we have created groupings (i.e., ABILITY OR DISABILITY) rather than placing them in alphabetical order. Please select codes from within the groups. Refer to the [2021 NCFR Call for Proposals](#), as necessary.

Please select one **Population Code** from the list below that best captures the focal population of your submission (e.g., sample, prevention/intervention target, policy).

(As you are selecting population codes, there are lines that should not be chosen and say 'do not select this line.')

(This is a pull-down menu.)

Loading Your Long Proposal

Please load a PDF of your long proposal below (only PDFs are allowed to maintain formatting). If you have questions about how to create a PDF format, please contact Cindy Winter (cindywinter@ncfr.org).

This document is used for the review process. The proposal consists of **up to 1,000 words** plus a maximum of two pages of tables/charts, and maximum of one page of references. Do not list author information in the long proposal. The proposal is reviewed anonymously in a blind-review process.

Your long proposal must include the following elements (no abstract):

- **Thesis/Aims/Goals:** Begin by summarizing the thesis of your proposal, followed by the aims and goals. Aims and goals are particularly important for workshop proposals as is a connection to the extant literature. The connection to theory should be explicit. Because of the brevity of the proposal, make your point up front rather than writing your entire proposal before you get to the purpose.
- **Methods:** Briefly discuss the methods/approaches you are using to provide evidence for your thesis and show how this is timely, relevant, rigorous, and cutting-edge. Explain the implementation of your methods. Demonstrate your knowledge of the methods used and explain how they benefit your research. For more practice-based or workshop proposals this section should include the how to (e.g., how an intervention was carried out, what process you will use to facilitate the workshop).
- **Analysis and Preliminary Results/Contributions:** Indicate the procedures you are using to answer your thesis, and provide preliminary results and contributions based on the data that you have collected. Readers will want to know the possible benefits and drawbacks of your research. Workshop proposals do not need to include results but should address potential contributions and innovations.
- **Implications for Research/Practice/Policy:** Discuss the potential impact of your results. Be sure that you show how your scholarship can be applied.
- See ncfr.org/lit-review for specific tips for writing a successful systematic literature review.

Special Instructions for a Symposium Proposal:

- On page 1, include the following: (1) symposium title; (2) a list of individual paper titles, authors/co-authors, and authors' employers; and (3) symposium chair and discussant names. For all first authors and the discussant, you **MUST** list a current employer and position title, highest degree earned, discipline and institution from which the highest degree was attained, current licenses, and email addresses. For all co-authors not presenting and the symposium chair, include only email addresses and employer.
- Page 2 is a one-page description (i.e., abstract) of the symposium, including how all the individual papers fit together and their collective contribution. Include three measurable objectives. (See page 3 of the [2021 NCFR Call for Proposals](#).)
- Pages 3 and following: Prepare a proposal of no more than 500 words and one page of tables/references for each of the papers to be presented during the symposium. Combine everything into one document.
