TABLE OF CONTENTS

I. Setting the Context for Contemporary Family Science

A. Stretching Theory and Theorizing in Contemporary Family Research (overview)

1. Capturing Process and Change over Time – Theory Construction
2. Metatheory and Mid-range theories

B. Methodological Approaches and Methods in Contemporary Family Research (overview)

1. Methodological Approaches for Capturing Process and Change over Time
2. Contemporary Methods for Capturing Process and Change over Time

II. The Great Depression, World War, and the Rise of Pragmatism in Family Science

A. Theories

1. Family Stress Theories
2. Symbolic Interactionism
3. Structural-Functionalism

B. Methodologies

1. Ethnographic Approaches

III. Normalism, Post-war Challenges, and Pluralism

A. Theories

1. Family Development Theory

2. Family Systems Theory
3. Ecological Theories
4. Social Conflict Theories
5. Social Exchange and Resource Theories
6. Life Course Framework

B. Methodologies

1. Grounded Theory Methodologies
2. Comparative Research
3. Longitudinal Research
4. Structural Equation/latent variable Modeling
5. Nested Modeling/Multilevel modeling
6. Dyadic modeling

IV. Social Movements, Critical Theory, and Contextualism

Theories

- A. Feminist Theories
- B. Critical Race Theories
- C. Intersectionality Theory Revisited
- D. Queer, Quare, and Transgender Theories

Methodologies

- E. Phenomenological Approaches
- F. Constructivist Grounded Theory
- G. Participatory Action Research

V. Family Theories and Health, Interdisciplinarity, and Translational Family Science

Theories

- A. Risk and Resilience Theories
- B. Ambiguous Loss and Ambivalence
- C. Family Communication

Methodologies

- A. Big Data in Translational Family Science
- B. Mixed Methods
- C. Evaluation Approaches

VI. The Future of Family Science

- A. Theoretical Pluralism
- B. Methodological Pluralism
- C. Family Policy Implications
- D. Clinical Implications
