Welcome to the NCFR Conference!

It has struck me over the past few years that, far too often, the dialogue and rhetoric we hear about families in our society focuses on the economic and social “costs” of families — for example, the costs of basic family needs such as child care, health care, schooling, parental leave, and elder care.

We spend much less time considering the ways families maintain and sustain our society. At the 2017 NCFR Annual Conference, the goal is to challenge scholars, practitioners, and policymakers to reframe the narrative on families and ask: How do families — all types of families — function as catalysts, at multiple levels, for a vibrant, healthy, and well-functioning society?

To that end, we have some exciting plenary speakers who will address how families shape everything from disability policy to neighborhoods, to the vibrancy of our economy, to laws and policies around immigration. We also have excellent symposia that highlight our NCFR scholars’ outstanding research and outreach efforts. I want to thank all of the NCFR Section chairs who went above and beyond to put together an exciting, provocative, and exceptional program. And thanks to the NCFR staff for dedicating countless hours to this conference.

I look forward to sharing an inspirational and exciting conference with all of you!

Conference Program Chair*

UNIVERSITY OF MARYLAND

DEPARTMENT OF FAMILY SCIENCE SCHOOL OF PUBLIC HEALTH

Located just eight miles from the nation's capital, the Department of Family Science at the University of Maryland offers four programs: Ph.D. degrees in Maternal & Child Health and Family Science; M.S. Couple & Family Therapy; B.S. Family Science. The Family Science program provides interdisciplinary training in research, theory, policy and practice relevant to the health and well-being of families in contemporary society. The Department houses the Center for Healthy Families, which provides training and research for the Couple & Family Therapy master's program.

The Department of Family Science has a long history of involvement in NCFR, including participation in leadership roles (President, Program Chair, Section Chair, Board Member); annual strong presence with the conference program, and an active student chapter, Maryland Council of Family Relations (MCFR).

Dr. Xia is a professor in the Department of Child, Youth, and Family Studies, College of Education and Human Sciences, at University of Nebraska-Lincoln. Dr. Xia, a Certified Family Life Educator (CFLE), earned her Ph.D. in Family Science from the University of Nebraska-Lincoln. Dr. Day was an emeritus professor in the School of Family Life at Brigham Young University, having retired in 2015. He unexpectedly died in Romania in early 2017. Dr. Day was an outstanding teacher and an influential researcher, though his greatest talent was a unique ability to mentor students. Many of these students went on to graduate school in Family Science programs throughout the country.

NCFR Student Award

Rachel Arocho

Given for demonstrated excellence as a student with great potential for contributing to Family Science.

Ms. Arocho is a doctoral candidate in Human Development and Family Science at Ohio State University. Ms. Arocho completed her bachelor's degree in Family, Consumer, and Human Development at the Uintah Basin Regional Campus of Utah State University and her master's degree in Human Development and Family Science at Ohio State. She was awarded a National Science Foundation Graduate Research Fellowship to pursue her research agenda on the marital expectations of American adolescents and young adults. In her letter nominating Ms. Arocho, Dr. Claire Kamp Dush writes: "Rachel is extremely talented, motivated, and hard working and is poised to make important contributions to research at the intersection of adolescent development and Family Science."

Jessie Bernard Outstanding Research Proposal

Joy Heafner

Presented to a graduate student or new professional who has demonstrated excellence in research and potential contribution to feminist scholarship. Jessie Bernard, the namesake of the award, was a pioneer in the field of feminist family studies known for her celebrated description of "his" and "her" marriages.

Ms. Heafner is a doctoral candidate in the Department of Human Development and Family Studies at the University of Connecticut; her paper is titled "A Qualitative Study of Feminist Therapists' Experiences of Managed Care." Her doctoral research is a qualitative study of how therapists integrate feminist theory and activism into their clinical work, as well as how they enact feminist principles in an increasingly medicalized mental healthcare system.

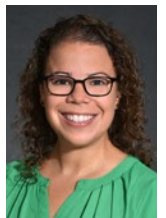

Cindy Winter Scholarship

Megan L. Haselschwerdt

Given to a student or new professional who has demonstrated outstanding leadership and service in the discipline of Family Science. This award recognizes Cindy Winter, NCFR's conference director from 1964-2007.

Dr. Haselschwerdt is an assistant professor in the Department of Child and Family Studies at the University of Tennessee, Knoxville. Along with her research team of graduate and undergraduate students and faculty collaborators, Dr. Haselschwerdt studies intimate partner violence (IPV) from the perspective of women, children exposed to IPV in their family of origin, and social service providers working with women and children.

Since joining NCFR in 2007, Dr. Haselschwerdt has served in a variety of leadership roles, including the Students and New Professionals (SNP) representative for the Feminism and Family Studies Section, co-chair of the Qualitative Family Research Network Focus Group, and the SNP program representative. More recently, she was elected as the chair-elect for the Feminism and Family Studies Section. Dr. Amy J. Rauer writes that Dr. Haselschwerdt "is someone who goes above and beyond to ensure that her department and her field thrive. The fact that this has not come at the cost of her research, teaching, and mentoring reflects the fact that Megan appears to have a nearly endless supply of passion and motivation, and our field is certainly the better as a result!"

Researchers interested in applying knowledge for change: Access funding for research that expands understanding of what most shapes health, and which interventions may have greatest potential for impact through our four research programs.

Learn more and decide which program is right for you at <http://rwjf.ws/ProgramFinder>.
