

Session Logistics: Interactive and Traditional Workshops 2021 NCFR Annual Conference

Interactive Workshops

Interactive workshops focus on the co-creation of new knowledge and skills in real time. For example, these workshops will work on collaborative brainstorming effort or address a need that moves work forward.

Interactive workshops have 75 minutes to present their materials. It is possible to have discussion through the entire workshop or whenever the workshop presenters deem appropriate.

Traditional Workshops

Traditional workshops are **training sessions** in which the presenter leads participants through exercises or skills development in a given field.

Traditional workshops are 75 minutes and should reserve at least 15 minutes for Q&A and discussion.

Workshop Details:

- All workshops are scheduled on Wed., Nov. 3, Thu., Nov. 4, and Fri., Nov. 5 between 10:00 am Central time and 4:30 pm Central Time. Check the [program schedule](#) for the scheduled time of your workshop.
- Attendees will be visible and may ask questions by raising their hands or through the Zoom chat feature.
- A facilitator and a presider will support the session. Occasionally, the presider and facilitator may be the same person. See **Facilitator and Presider Instructions** for more information. The workshop leaders or a session chair may also facilitate the session.

Prior to the conference, connect with the workshop leaders, facilitator, presider, and chair in your session to ensure a successful virtual session.

- **All presenters, chairs, moderators, discussants, facilitators, presiders, and any coauthors attending the session or conference must be registered** to participate in your scheduled session, including invited individuals. See www.ncfr.org/ncfr-2021/registration to register.

Workshop Leaders, Presenters, Chairs, Presiders, or Facilitators should arrive at their session **15 minutes early** to ensure you are logged in and ready to begin at the start of your session.

Your workshop will be conducted **live** through Zoom.

- Access your session directly through Whova. Once in Whova, navigate to your session through the agenda. Search for your session number.
- Click on the session. The URL is provided in Whova at the top of the page
- You will be able to see and interact with session attendees.

A Note About Providing Handouts at Your Session:

Handouts are recommended, but not required. Handouts or presentation slides can be posted alongside the information about your session.

NEW This Year: We encourage you to **Submit** optional handouts directly into **Whova between Oct. 11 and Oct. 23, 2021**. *You will receive an email with a unique link directly from Whova providing instructions starting Oct. 11 once you are registered.* Upload **final** documents. You will not be able to modify or delete any uploaded files.

Optional handouts can include a 1- to 2-page executive summary of your presentation, including implications of your work for policy, practice, research, or pedagogy. Many attendees find these materials beneficial.

All handouts should be **accessible** and saved as a **PDF**.

During the conference

- NCFR Zoom Support will be logged into your session to welcome you before the session.
- Write your name within Zoom so others know your name. Click on 'participants'. When the dialog box open, click on 'more' next to your name. Click rename and enter your name.
- Presenters, discussants, moderators, presiders, chairs, and facilitators will have video and audio capabilities.
- Presenters will be allowed to share their screens to share their slides.
- Face the camera when speaking to allow for lip reading.
- Be enthusiastic during your live presentation.
- Avoid reading your paper, notes, or handouts. Refer to your notes or prepare an outline from which you present your presentation.
- Relax and enjoy yourself as you present your paper, and your audience will respond accordingly.
- Be calm and have a sense of humor, especially if technical difficulties arise.
- All attendees should have their names visible.

Increasing Engagement

Interactive sessions allow for more engagement among participants and a more stimulating session. The following are suggestions to increase engagement.

- Using tools for polling, word clouds, quizzes, rankings, etc. Mentimeter is one software that can be used. <https://www.youtube.com/user/Mentimeter>. Feel free to use the software with which you are most comfortable.

Preparing Your Presentation

The following is an in-depth list of instructions to assist in preparing slide presentations. Shorter instructions were also found in the **Presenter Instructions 2021 NCFR Virtual Conference**.

Text

- Keep the title as short as possible so others can read it quickly.
- Use upper- and lower-case type throughout. Avoid all upper-case type.
- Serif fonts (such as Times New Roman) are generally easier to read in the body of the text. Sans serif fonts (such as Arial or Calibri) are best used in titles, headings, and captions for emphasis.
- Use bold and bullets for emphasis.
- Font sizes should be at least 24-point for the body, 28-point for headers, and 32-point for titles.
- Keep it simple, clean, and concise. One item per line works best, so use key words rather than complete sentences. The optimum display on a slide is no more than 6 to 8 lines and 30 words per slide.
- Use only two levels of bullet points.
- Double space between each line of text.

Color

- Text should be printed on a contrasting background (dark text on a light background, or light text on a dark background).
- Avoid harsh colors, such as neon, and text/background color combinations that are hard to read (e.g., red and yellow, red and green, red and black, purple and green, yellow and green, or blue and red).
- Choose no more than two colors (in addition to either white or black) for the graphic elements of your poster (such as borders or horizontal rules) to emphasize elements and draw attention to your poster.

Tables and Charts

- Keep graphics as simple as possible. More complex data can be presented in a handout.
- Photographs should be used sparingly.
- Do not use hand drawn images.
- All images should be high-quality and look good on screen.

Accessible Presentations

Design your presentation with accessibility in mind.

- **Color and Contrast.** Colors should be sharp and in strong contrast without being unsettling. Limit the number of colors used on one slide. Do not only use color to distinguish information.
- **Text over images** can be difficult to read.
- **Send your material in advance**, if possible, in case NCFR staff need to provide alternative text (tagged PDF or braille) of your presentation.
- **Check Accessibility.** Assess whether your poster is accessible by clicking on Review and Check Accessibility (in PowerPoint). For instructions see <https://support.microsoft.com/en-us/office/improve-accessibility-with-the-accessibility-checker-a16f6de0-2f39-4a2b-8bd8-5ad801426c7f>
